Cork Wallpaper

Beyond mere covering, an invitation
of nature into your home.

A large, mature cork oak tree with a thick, reddish-brown trunk and a dense, green canopy dominates the left side of the image. The ground is covered in dry, yellowish grass. In the background, other cork oak trees are visible, and a yellow measuring pole is planted in the ground near the base of the main tree. The sky is a clear, pale blue.

THE BALANCE OF HUMANS & NATURE

After the harvest is finished, the montado bids farewell to human presence for nine years. That's why we say that cork industry contributes not only to local development, but also to assigning economic value to natural resources, the cork oak tree ecosystem, promoting a perfect marriage between humans and nature.

Crafting Cork Veneers

FROM SOURCE TO SURFACE

Crafting a bag or decorating a wall with the bark of a tree? Yes, it's possible with cork! The art of creating cork veneers is a meticulous process that transforms raw cork into versatile surfaces.

At our partner's factory, trained artisans, typically women, execute this handcrafted process with precision skills. Cork sheets are sliced from natural cork or decorative

cork blocks and carefully adhered, piece by piece, much like patchwork, to various supports like fabric, paper, agglomerated cork, or even vinyl... Then, in a press, heat and pressure create a seamless bond. Finally, sanding and a protective layer enhance the unique, soft, and natural feel while preserving the cork's properties, creating unique cork surfaces in a variety of materials.

Choose your Cork Surface Patterns

We pride ourselves on selecting natural patterns over printed ones, reflecting our commitment to nature-conscious design. By working with cork, we embrace its innate beauty and versatility. Our unique technique allows for an infinite array of patterns using both natural and agglomerated cork.

Choose your Cork Surface Colours

We offer a captivating palette of over 25 hand-painted coloured finishes. Our colours are permanent and guaranteed not to fade for 2 years. For bulk orders, we can create personalised colours matched to Pantone references.

Choosing the perfect pattern is key. While our standard coloured cork veneers use ref. 100 (premium natural), you can also explore other plain patterns like references like 50, 60F, 60C, 300, and 600.

Choose your Cork Surface **Washed Effect**

Crafted through delicate hand techniques, the washed effect can be applied in various colours and on different patterns, resulting in a vintage appearance that imparts a beautifully weathered and time-worn look to your material. When applied on brown shades, it creates an irresistible leather-like appearance.

Note that the effect may vary slightly when applied to cork fabric or wallpaper, as depicted in the photos on the left. Explore our selection of washed effect samples on the next page, knowing that it's applicable across all colours within our collection.

About Cork Wallpaper

With the technical expertise of our partner factory, we create cork wallpapers that are open to creative ideas inspired by nature and innovative design.

CORK SUPPLIES

COLOURS & PATTERNS

We offer a wide variety of natural patterns and colours, including special textures like our washed effects and flecked collection.

TECHNICAL PROPERTIES

- Nonwoven wallpaper 90 g/m² (2.61 oz/yd²)
- Overall thickness (mm): 0,40 ± 0,10 (0.016 ± 0.004 in)
- Overall mass per unit area (g/m²): 180 ± 40 (5.14 ± 1.16 oz/yd²)

ENVIRONMENTAL PROPERTIES

The cork surface, fortified by the protector, resists dust, stains, and dirt while preserving chemical safety.

This enhances the wallpaper's anti-bacterial, hypoallergenic, moisture-controlling, and anti-static properties, making it hygienic and safe for health. Ideal for allergy sufferers and asthmatics.

PRESENTATION

Available in a variety of sizes, provided in rolls with the following dimensions:

Widths: 50 cm (20 in) and 100 cm (39.4 in)

Lengths: 5 meters (5.5 yds) and 10 meters (10.9 yds)

CLEANING & MAINTENANCE

Our protector enhances cork's natural properties, rendering it more water-resistant (not being washable) and resistant to scratches, stains, and dirt. Simply wipe gently with a dry cloth; no additional care is required. We suggest applying our maintenance kit once a year.

Do not: expose to prolonged sunlight; allow intensive contact with liquids; use aggressive cleaning products (and glue) containing abrasive ingredients or solvents.

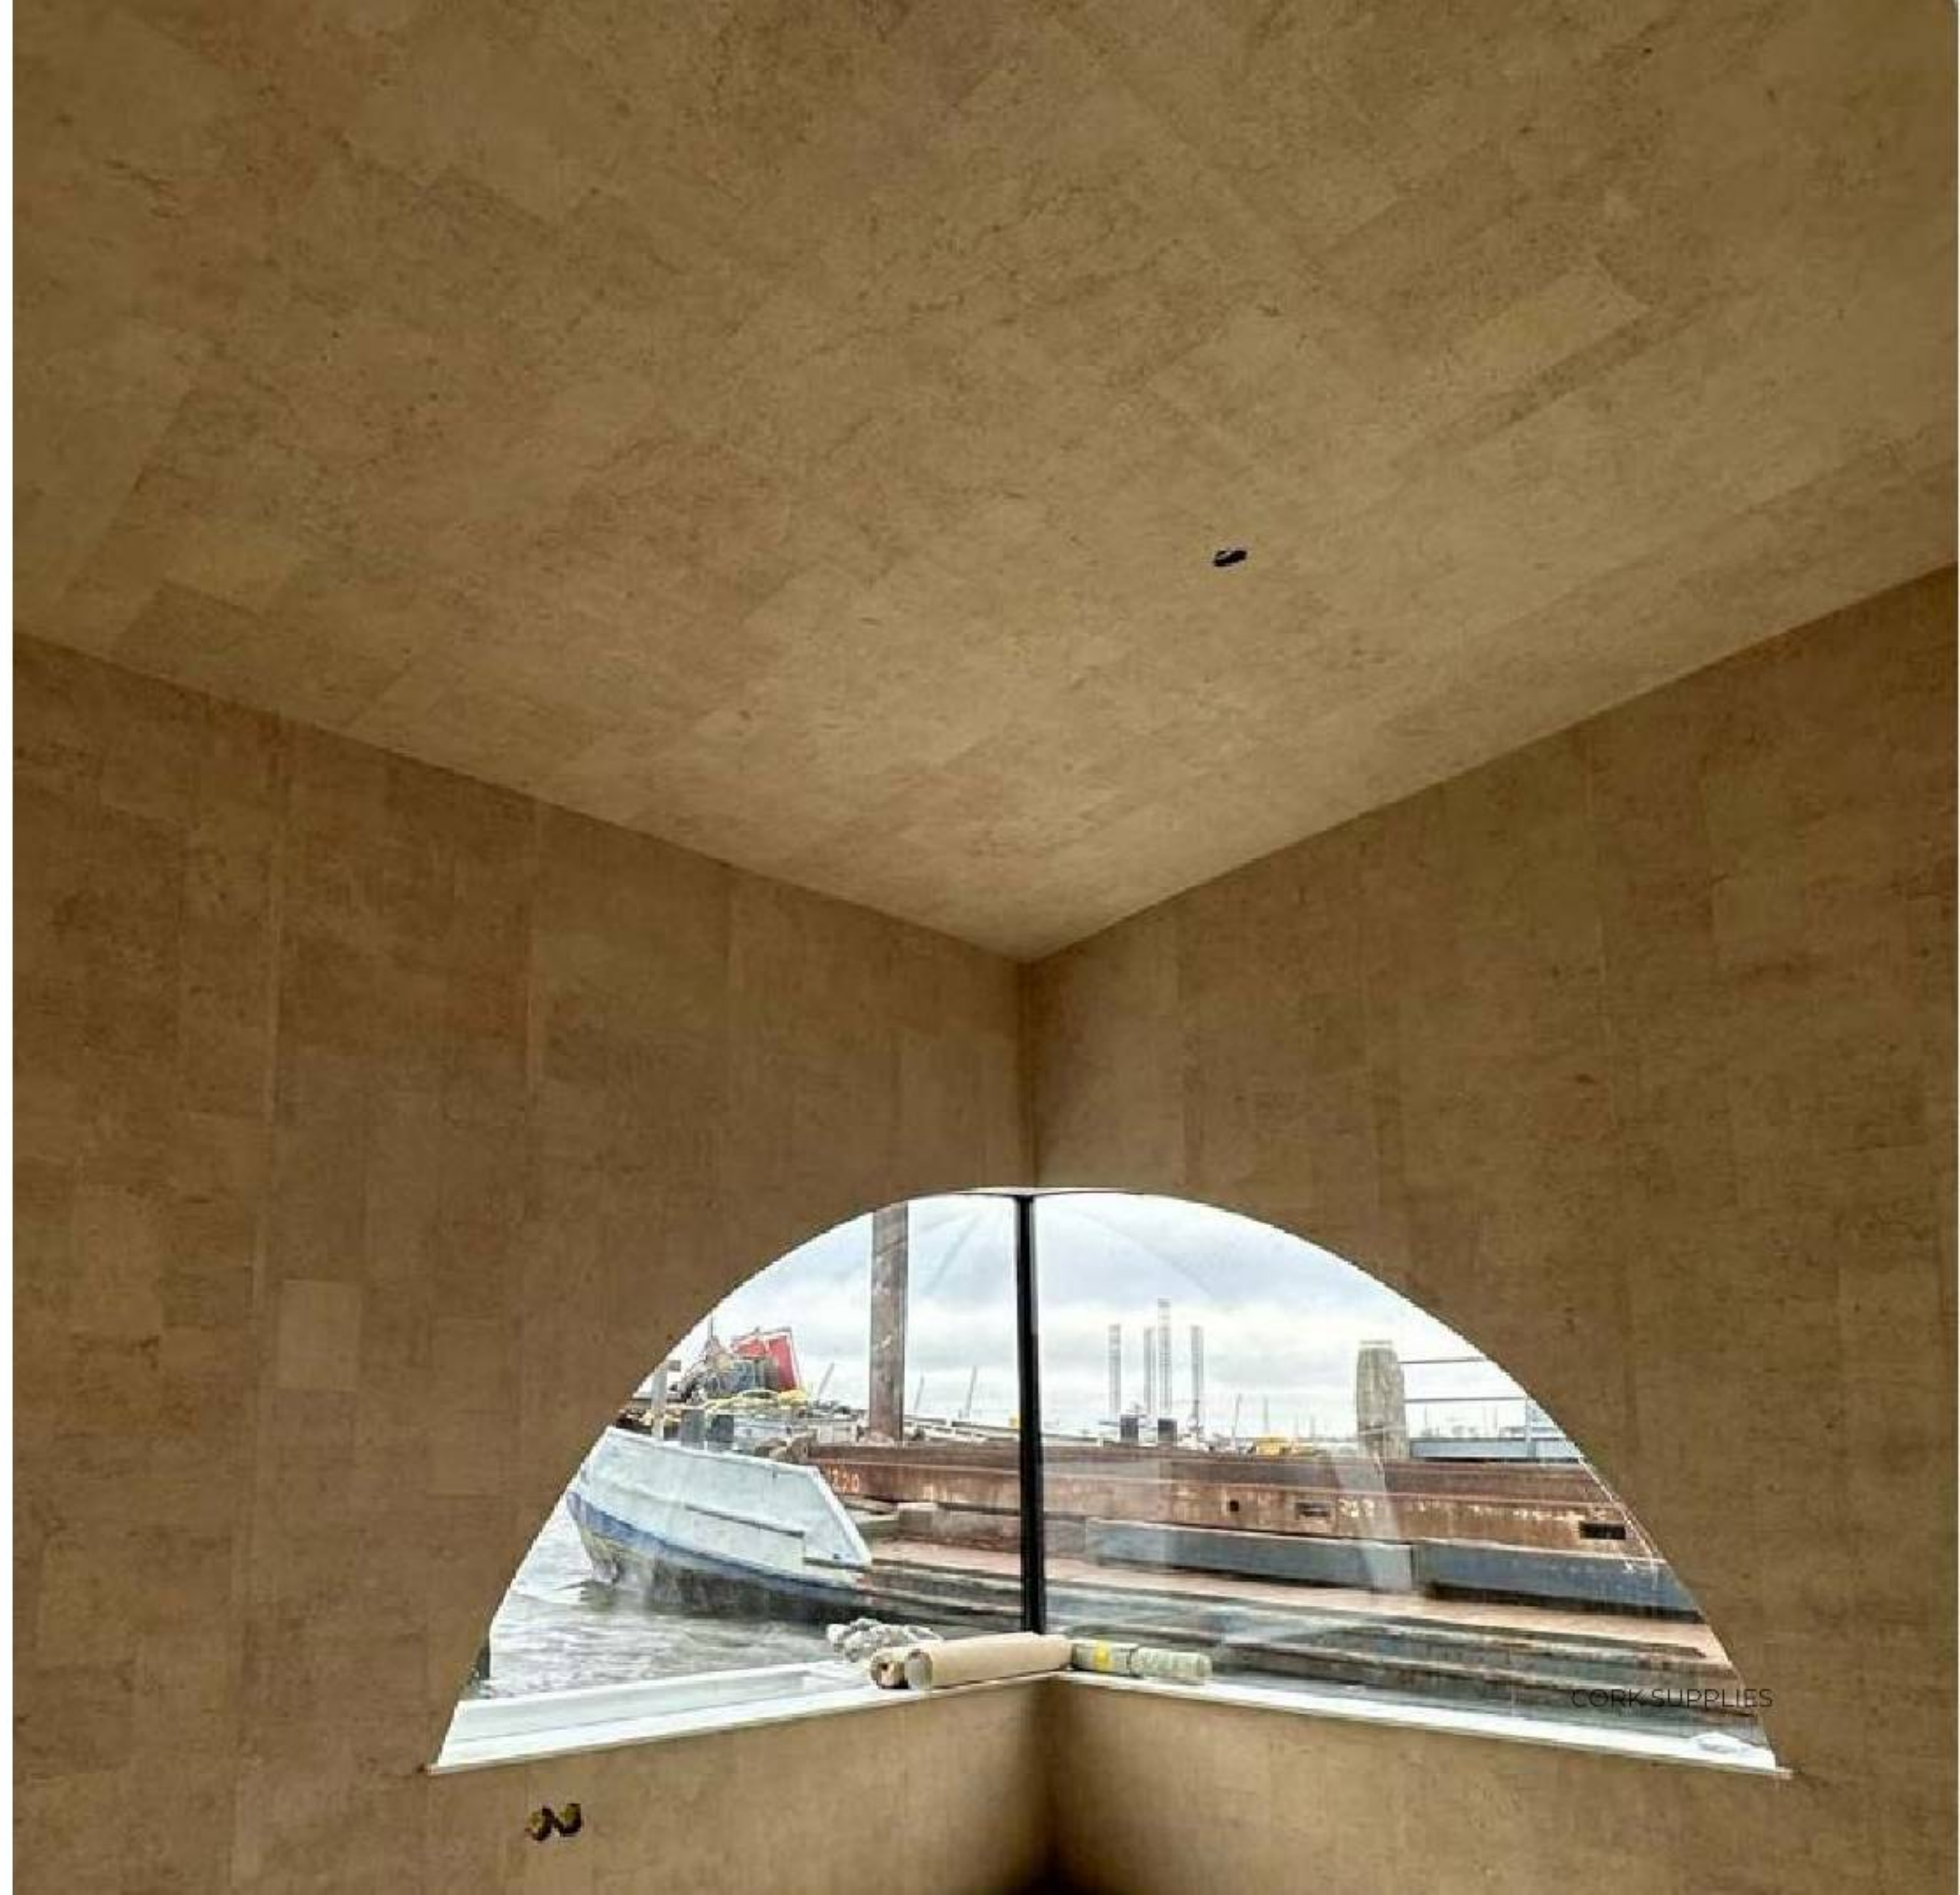

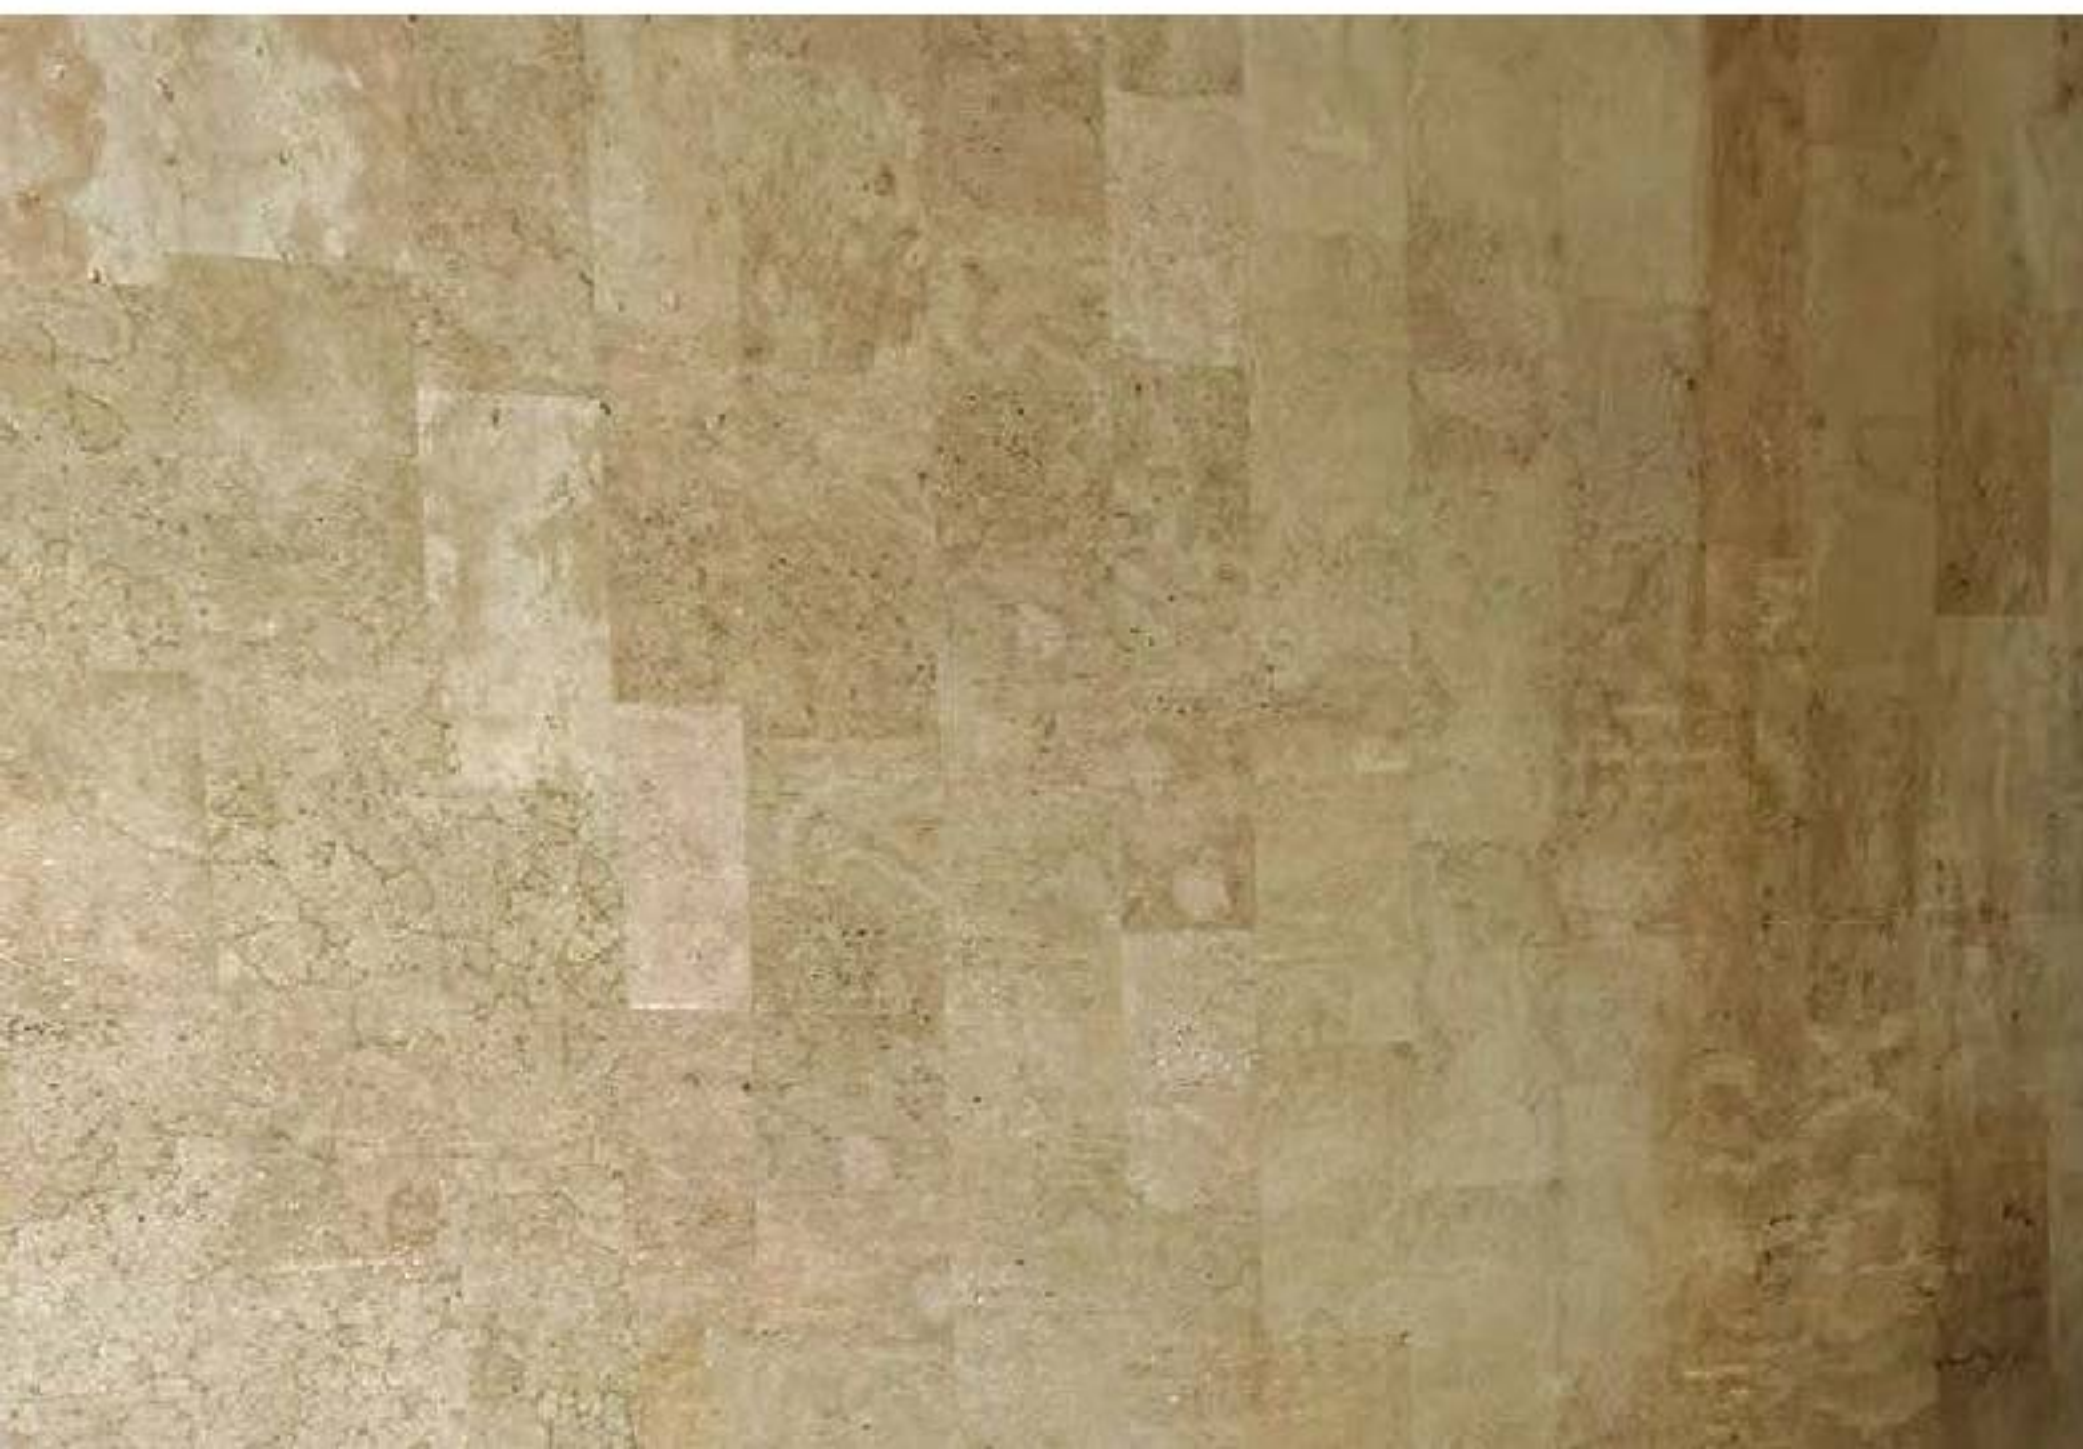

How to use Cork Wallpaper

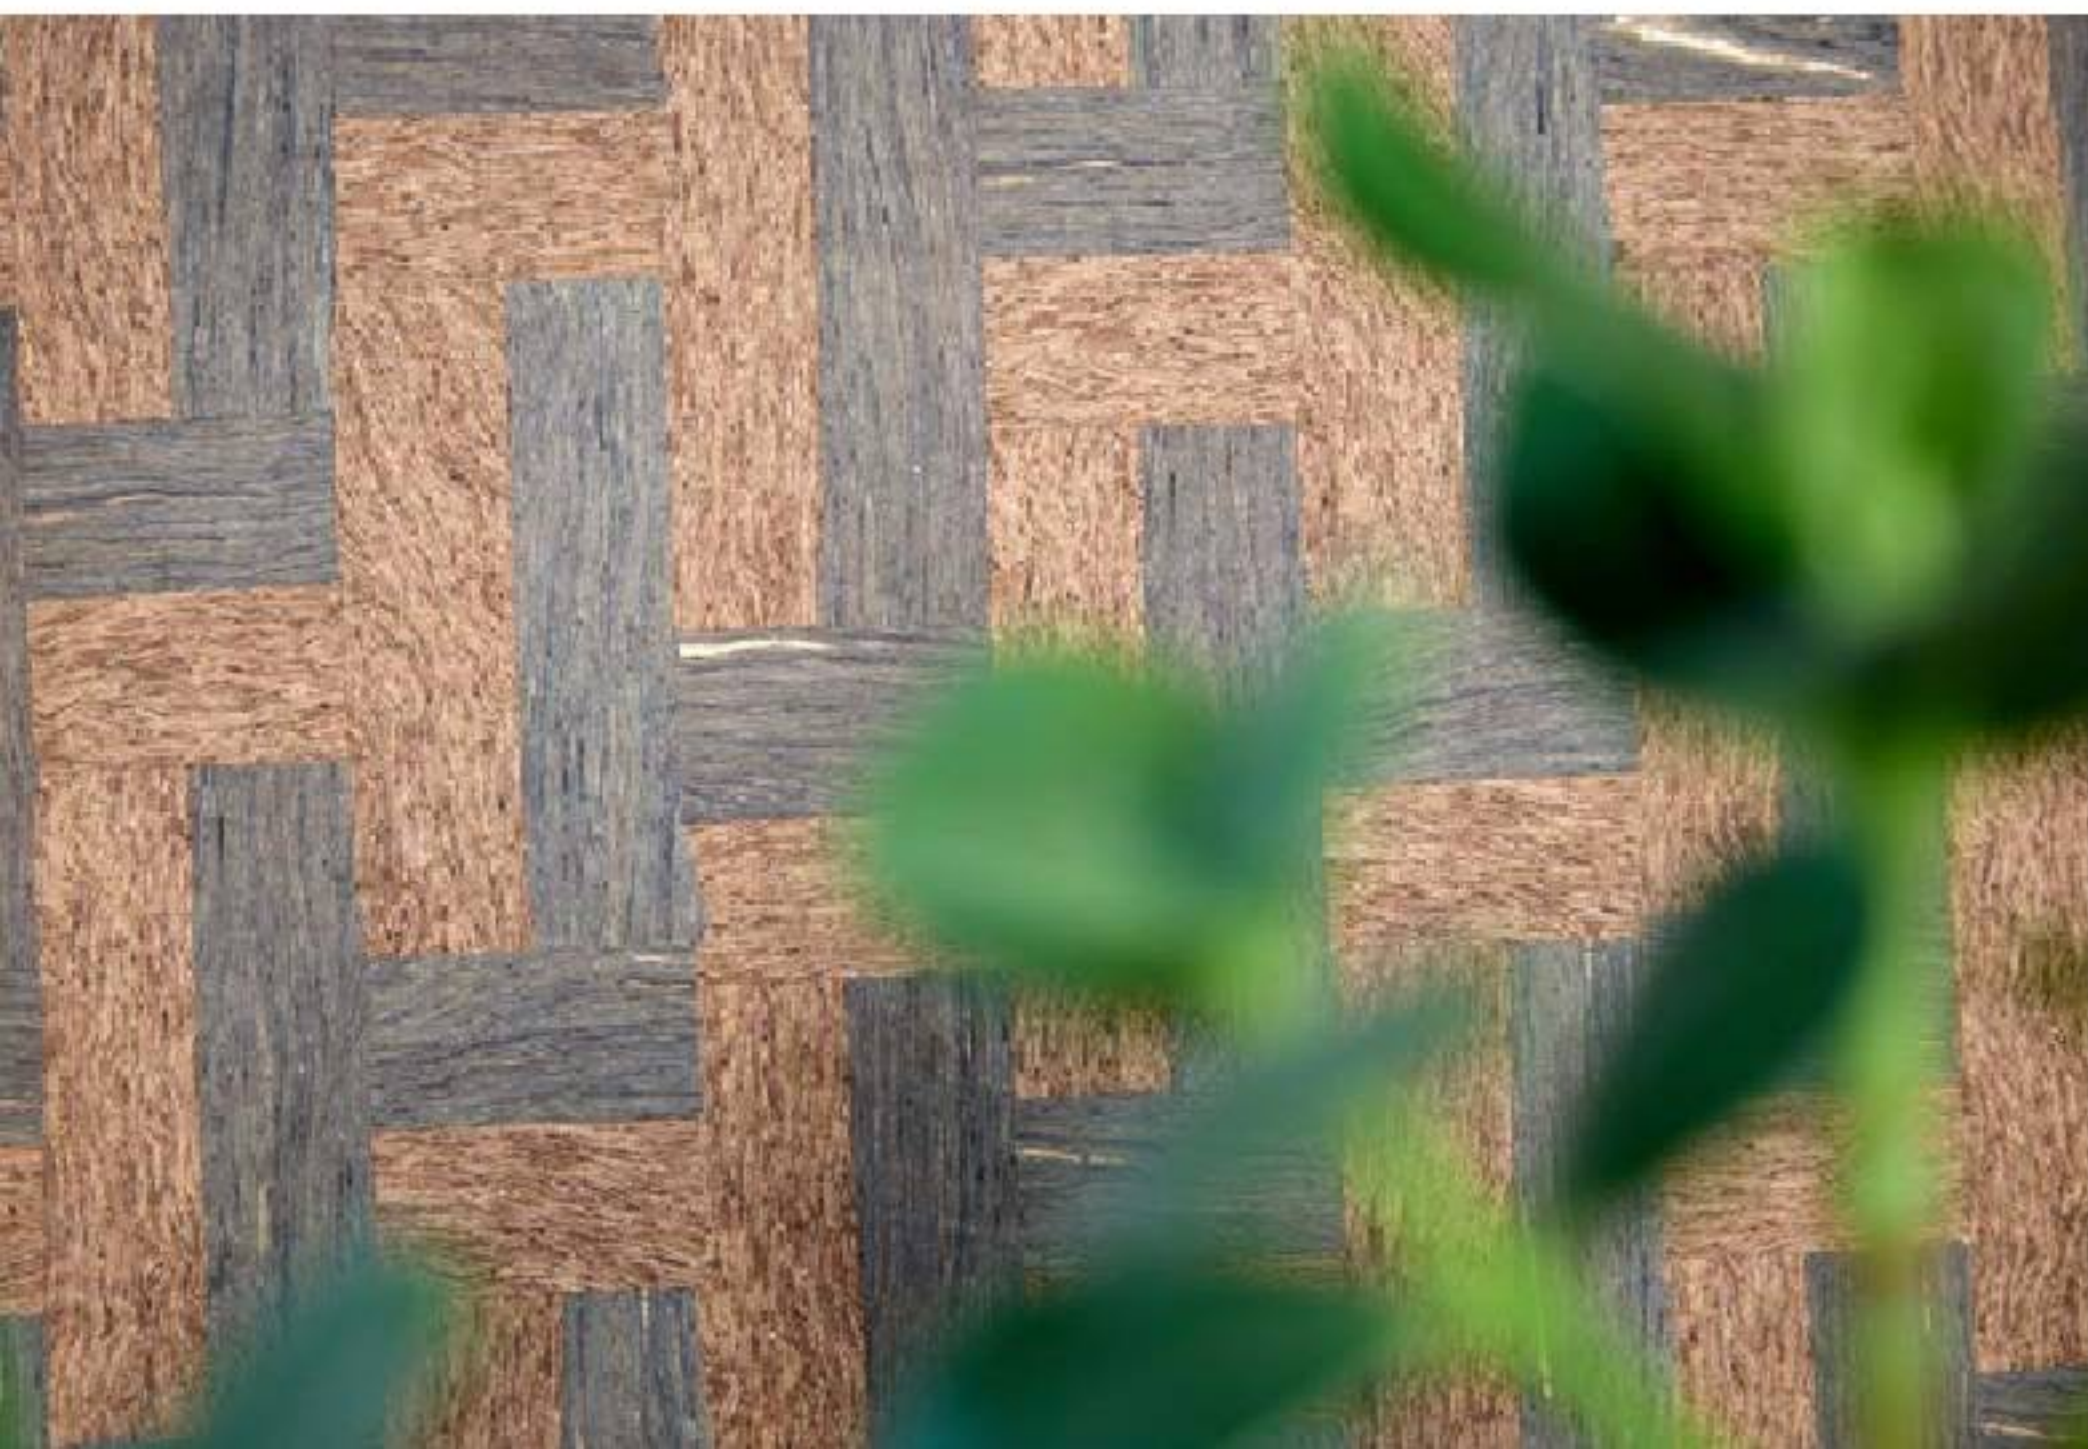

Our wallpapers are easy to install, and simple to maintain, providing a sustainable, versatile and durable solution for enhancing interior decor. They represent an opportunity to redefine walls with the beauty of nature, allowing you to experience the natural charm of cork within a stylish, environmentally-conscious setting.

Installation is similar to regular wallpaper application, utilizing adhesive specifically designed for this purpose and avoiding solvent-based glue while employing standard methods. For certain colours and patterns, the double cut technique may be more suitable to prevent overlaps and seams.

It's advisable to avoid using them in areas with high humidity, condensation, or grease, such as bathrooms and kitchens. They are perfect for living rooms, bedrooms, hallways, offices, and commercial spaces.

Account for potential overlap and adjustments when calculating the amount of wallpaper needed, and consider buying extra because reordering may result in slight differences due to handcrafting and natural materials, making it difficult to match exactly. For more information, please refer to our installation guide.
